

Goodies Galore

No it's not the title of yet another James Bond movie, but it is a valid description of the package offered by Melbourne's Whittley Cruisers in the 6.6 metre Cruisemaster

WHEN Jim Whittley set out to build a family cruiser, he decided from the outset that it was going to have all the necessities for comfortable family outings. Nothing was to be sacrificed, and it was all going to be done to the highest standards possible, while keeping the overall cost of the package within the realms of "family" reality.
